

# **EdgeGO**<sup>®</sup>

## A Dynamic, Edge-Native, Remote Device Management Software For All Edge Devices

### **Key Features**

- Device Management Anytime, Anywhere, 24/7
- Stay Informed by Real-time Alerts
- Execute Scripts and Deploy Packages with Just a Few Clicks
- Customizable Visual Dashboard at a Glance
- Protect User Devices with Advanced Edge Security Measures
- Exclusive Features for ADLINK Device Users

#### **Feature Overview**

EdgeGO <sup>®</sup> - Remote Device Management For All Edge Devices						
Remote Device Management	<ul> <li>Supervise devices and user groups easily with EdgeGO's web user interface</li> <li>Reboot, shut down, terminate, and take screenshots remotely, without any location restrictions</li> <li>Access documents from anywhere with a single click using the remote desktop feature</li> <li>iAPPs manager for ADLINK and third-party applications</li> </ul>					
Real-Time Notifications	<ul> <li>Rule-based engine to enable users to schedule alerts based on specific dates and times, thresholds, or conditions</li> <li>Users can receive alerts through their preferred platform, including email, LINE, Teams, and more</li> </ul>					
Script and Package Deployment	<ul> <li>Easy upload and execute script(s) or package(s)</li> <li>A repository of scripts and packages for convenient monitoring, upload, and reuse</li> </ul>					
Edge Security	<ul> <li>Offer on-premise or off-premise server setup</li> <li>Guarantee secure connections between server and agents</li> <li>Secure device onboarding process</li> <li>Allow users to lock or unlock USB ports of their selected devices</li> <li>Enable Two-factor authentication</li> </ul>					
Customizable Dashboards	<ul> <li>Customize dynamic dashboards with graphs, statistics, and charts to meet user's specific needs</li> <li>Showing custom data imported from third-party add-ons like Grafana</li> </ul>					
Exclusive ADLINK Features	<ul> <li>Embedded Smart Embedded Management Agent (SEMA) to collect local hardware data</li> <li>ASD+ SSDs lifetime estimation based on user work cycles</li> </ul>
