

High Brightness Display

Commercial

- Retail
- Corporate and Broadcast
- Healthcare
- Government , command and control centers .

Infrastructural

- Transportation, Public places
- Sports and Entertainment

Institutional

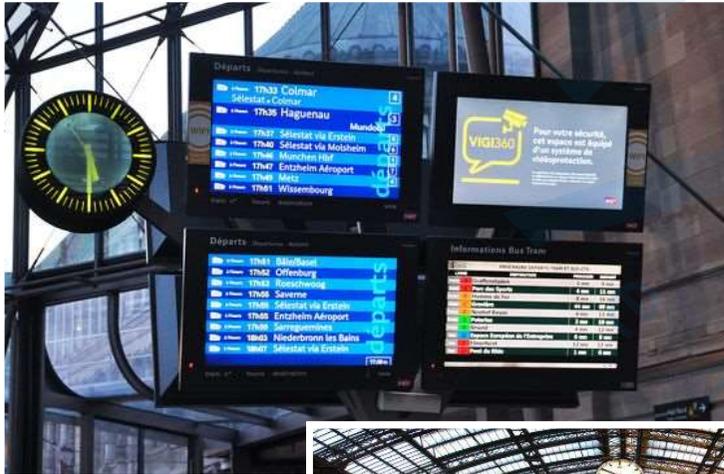

- Banking , Financial Service , and insurance (BFSI)
- Education

Rugged

- Harsh Environment
- Outdoor Advertising Signage
- Maritime

Outdoor & Digital Signage Display

Sunlight Readable

- High brightness, >1000 nit
- UV resistant Optical Bonding
- AR/AG/AF surface coating and shattering proof cover glass

PCAP with water resistant

- Advanced optical bond
- Shatterproof

Application

- Transportation
- Public Info Digital Signage

Coating Glass

High thermal stability

IP Grade

Vandalproof

Sunlight readable

UV Resistive

Longevity

Waterproof touch

High Brightness

Rugged Industrial Display

Rugged Industrial Display
Long Product Lifetime & Durability

Waterproof touch

Vandalproof

IP Grade

Sunlight readable

Anti-vibration

Optical Bond

Anti-corrosion

High thermal stability

Coating Glass

Rugged HMI / Tablet, Farming Vehicle, Industrial Vehicle

- Extreme weather & harsh environment operation
- High reliability and stability
- PCAP with AR/AG/AF Glass Coating

Vehicle Cluster Display

Vehicle application

- Touch display for automotive, motorcycle, industrial/heavy duty/agricultural /off road vehicles
- Instrument cluster, center information display (CID), information system for all type of vehicles

- ✓ Shattering & vandal proof
- ✓ High brightness
- ✓ All weather touch display
- ✓ Impact resistance
- ✓ High reliability and stability
- ✓ UV resistance
- ✓ Sunlight readable

Sunlight readable

Longevity

Market Segments & Product Application

Marine MFD and Cluster Display

- Wet finger and anti-salt water touch display
- Anti-erosion from salt mist and dust
- All weather protection and harsh environment operation
- Complete customized solutions

Industrial Ruggedized Display

- Ruggedized industrial HMI
- All weather protection and harsh environment operation
- Anti-condensation & Anti-erosion
- High reliability and stability

Vehicle Cluster Display

- Touch display for automotive, motorcycle, industrial/heavy duty/agricultural /off road vehicles
- Instrument cluster, center information display (CID), and Infotainment system for all type of vehicles

Intelligent Appliance Display

- High tech & intelligent appliances
- Round display & encoder applications
- Water and dust resistance

Transportation Info & Outdoor Digital Signage

- Transportation and Public Info Digital Signage
- Sunlight Readable
- PCAP with water resistant

Medical Display

- Anti-bacterial and scratch-resistant
- Combination touch solutions of membrane and LCM
- Free-form, narrow bezels, curved design, and optimized touch technologies
