## Automotive AEC-Q200 products

ACDL, ACE1V, CMLA, DRA, DRAP, DRAQ, ECSTA, EXLA, HCMA, HCM1A, HCM1AV2, HCSA, LTAXV, MCLA, MFBA, MPIAMTA, MFBA, PCA, SDCxA , VPA, WCLA

## Chip inductors and ferrite beads

MCL, MCQ, WCL, MFBx

## High current inductors

MPI, HCM, HCx, FPx, EXL, HFW

## Shielded/semi-shielded drum inductors

DR, SD, DRQ, SDQ, SDCx

## Surface mount power inductors

LD, UP (Uni-Pac), CTX\_-1x  
(Octa-Pac, Econo-Pac)

## Multi-phase & V-core

FP, CL, TLVR

## Through-hole power inductors

LCPI, RL

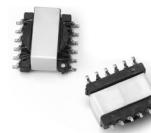

## Common-mode inductors

CMS, ECMS, ECMT

## Transformers

VP (Versa-Pac), PoE configurable,  
PoE forward and flyback, ECST,  
LANxV, CLCC

## Non-isolated/isolated DC-DC converters

EPM

## Automotive solutions

### DRA and DRAQ Automotive-grade high power shielded inductors

- AEC-Q200 qualified
- +165 °C maximum total temperature operation
- Ferrite core material
- Rugged construction for high shock and vibration environments
- Magnetically shielded - reduces EMI
- Dual winding option, DRAQ

### DRAP Automotive-grade high power shielded inductors

- AEC-Q200 qualified
- Secure four terminal mounting ideal for severe vibration environments up to 30 G
- +165 °C maximum total temperature operation
- Ferrite core material
- Magnetically shielded - reduces EMI

### HCM1A Automotive-grade high current shielded inductors

- AEC-Q200 qualified
- +155 °C maximum total temperature operation
- Alloy powder core material
- Low core losses
- Magnetically shielded

### SDCxA (SDCLA / SDCHA) Automotive-grade semi-shielded inductors

- Multiple industry standard footprints from 4 mm to 8 mm
- AEC-Q200 Grade 1 (-40 °C to +125 °C)
- High current up to 8 A (Irms)
- Wide inductance value range (1  $\mu$ H to 100  $\mu$ H)
- Resin shielded for lower EMI

|              | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |      | Size (mm) |     |     |

## HCM1AV2 Automotive-grade high current shielded inductors

- AEC-Q200 qualified
- High current carrying capacity in a variety of footprints
- Magnetically shielded, low EMI
- Rugged construction
- Moisture sensitivity level (MSL): 1

|             | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |      | Size (mm) |      |      |

## HCSA Automotive-grade molded coupled inductors

- Coupled molded design offering soft inductance roll-off vs ferrite solutions
- High current handling up to 11 A
- Lower DCR provides lower losses and improves heat dissipation
- Comes in 3 most popular inductance values 10  $\mu$ H, 15  $\mu$ H and 22  $\mu$ H
- AECQ Grade 1 rated for -55 °C to +155 °C

|            | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |      | Size (mm) |      |     |
|------------|-----------------------|------|------------------|------|------------------|------|------------------------|------|-----------|------|-----|

## Automotive solutions

### MFBA Automotive-grade ferrite beads

- AEC-Q200 qualified
- 0402 (0603 metric), 0603 (1608 metric), and 1206 (3126 metric)
- Rugged multilayer monolithic construction
- High impedance performance
- Special design for high current applications (up to 4 A)
- Wide range of impedance values 30 Ω to 600 Ω
- Operating temperature range: -55 °C to +150 °C

|            | Impedance ( $\Omega$ ) $\pm 25\%$ |      | Idc Current Max. (mA) |      | DCR Max. (mΩ) |      | Size (mm) |      |      |

## Automotive solutions

### ECSTA Automotive grade SMT current sense transformer

- AEC-Q200 Grade 3 tested for high reliability
- High current capability up to 15 A
- Low DCR current sense winding
- High frequency range up to 1 MHz
- High operating temperature range from -40 °C to +125 °C
- 500 V isolation voltage

| Family  | Turns ratio sec:pri |      | Secondary inductance ( $\mu$ H) |      | DCR sec ( $\Omega$ ) maximum |      | DCR pri ( $\Omega$ ) maximum |      | Hi-pot pri to sec @ 2 mA 3 seconds 50 Hz | Sensed current (A) maximum | Size (mm) |      |      |

### VPA Automotive surface-mount configurable inductor/transformers

- AEC-Q200 grade 3
- 500 V isolation voltage
- Multi-winding (six total)
- High-reliability configurable magnetics
- Hundreds of inductor and transformer configurations possible
- Four popular SMT footprints

| Family  | Inductance ( $\mu$ H) |      | Isat Current (A) |       | Irms Current (A) Min. | DCR (m $\Omega$ ) maximum | Size (mm) |      |      |      |

## Computing (V-core, multi-phase, VRM, POL) solutions

### FP high current inductors

- High frequency
- Ferrite core material
- Tight tolerance DCR
- High current carrying capacity
- Small size, low profile, open bottom, lower DCR, and vertical versions

## Commercial and industrial solutions

### EXL High performance molded inductors

- High current carrying capacity, 4.4 A to 25 A
- Low DCR, high efficiency
- Magnetically shielded, low EMI
- Soft-rolloff saturation current
- Inductance range from 0.47 µH to 15 µH
- 5 PCB sizes (4 mm to 10 mm height)

|           | Inductance (µH) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (mΩ) |      | Size (mm) |      |      |

## Commercial and industrial solutions

### SDCx (SDCL / SDCH) Semi-shielded inductors

- High current carrying capacity
- Great balance between performance, and low cost design
- Magnetically semi-shielded using magnetic resin/epoxy technology
- Low profile shielded drum
- Inductance range from 0.33 µH to 1 mH (1000 µH)

|          | Inductance (µH) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (Ω) |      | Size (mm) |     |     |

### Dual winding toroidal power inductors

- Dual winding inductors that can be used as either a single inductor, or in coupled inductor/transformer applications (1:1 turns ratio)
- Closed magnetic path, low EMI
- Low core loss

## ECMT Power line common mode choke

- Multiple industry standard footprints from 17 mm to 29 mm
- Wide range operating temperature (-40 °C to +125 °C)
- Current ratings up to 2.5 A
- Wide inductance range
- High voltage isolation 1500 Vac

|          | Inductance ( $\mu$ H) |      | Irms Current (A) |      | DCR Max (m $\Omega$ ) |      | Size (mm) |      |    |

## ECMS Power line common mode filter

- Multiple industry standard footprints from 7 mm to 12 mm
- Operating temperature (-40 °C to +125 °C)
- Impedances up 3,000  $\Omega$
- High current up to 15 A
- Voltage rated up to 125 V

|            | Impedance ( $\Omega$ ) |      | Irms Current (A) |      | DCR Max (m $\Omega$ ) |      | Size (mm) |    |      |

## Commercial and industrial solutions

### LD Metalized, unshielded drum core inductors

- Metalized, unshielded drum core
- Ferrite core material
- Noise filtering and output filter chokes

|        | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |       | Size (mm) |     |     |

### LCPI Vertical, horizontal and header mounted through-hole toroidal inductors

- Self-leaded and header mounted toroidal inductors
- Low loss, iron powder cores with stable electrical operating characteristics
- Vertical and horizontal configurations

|          | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |      | Mounting Style |   |   |

### VP Surface-mount configurable inductor/transformers

- High power density, low profile configurable transformers
- Multi-winding (six total)
- Ferrite core material
- Low radiated noise and tightly coupled windings
- Over 500 configurable combinations

| Family   | Inductance ( $\mu$ H) |      | Isat Current (A) |      | Irms Current (A) |      | DCR Max. (m $\Omega$ ) |       | Size (mm) |      |      |

## ECST SMT current sense transformer

- High current capability up to 15 A
- Low DCR current sense winding
- High frequency range up to 1 MHz
- High operating temperature range from -40 °C to +125 °C
- 500 V isolation voltage

| Family     | Turns ratio sec:pri |       | Secondary inductance ( $\mu$ H) |       | DCR sec ( $\Omega$ ) maximum |      | DCR pri ( $\Omega$ ) maximum |         | Hi-pot pri to sec @ 2 mA 3 seconds 50 Hz | Sensed current (A) maximum | Size (mm) |      |   |

## LANxV LAN transformer

- Supports multiple IEEE 802.3 data speed protocols
- Low leakage inductance
- Standard LAN transformer module package with transformer and common mode filter
- Multiple port configurations
- IEEE802.3 (CSMA/CD Bus) compliant

## CLCC Common-mode chip inductor/auto-transformer

- Supports 10/100/1000BASE-T IEEE 802.3 up to 2.5 G BASE-T
- Flexible design options for RJ45 PHY Ethernet interface saving board space and cost compared to traditional network LAN transformers
- Precision coil winding construction for optimum parasitic capacitance suppression
- 50 V rated
- Operating temperature range: -40 °C to +85 °C

## Custom capabilities

### Custom capabilities

Eaton's leadership in custom solutions is derived from our in-depth understanding of applications, modeling tools, and customer needs to maximize device performance. We offer transformers, inductors, and planar form factors which can be build to print or fully designed by our team.

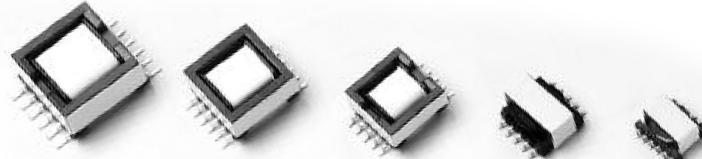

### Standard geometry custom inductors

- Power range from 1 W to 120 W
- Frequency range from 20 kHz to 500 kHz
- High power density and low radiated noise
- Ferrite core material

**Standard geometries sizes 1 to 9 core and bobbin parameters**

\* fill factor considered

- Standard geometries sizes 1 through 5 are gull wing style devices offering very low product profiles
- Standard geometries sizes 6 through 9 are J-lead style devices offering smaller product footprints but with increased product height

## Custom capabilities

### EPM DC-DC converters (non-isolated)

- No minimum load required
- Isolated DC-DC converter
- EC62368-1/ EN55032&35 certified

|         | Input voltage (Vdc) |      | Output voltage (Vdc) |      | Capacitance load ( $\mu$ F) |      |
|---------|---------------------|------|----------------------|------|-----------------------------|------|
|         | Min.                | Max. | Min.                 | Max. | Min.                        | Max. |
| EPM12V1 | 3                   | 14   | 0.9                  | 5.5  | -                           | 200  |
| EPM12V2 | 3                   | 14.4 | 0.6                  | 5.5  | -                           | 200  |
| EPM78Vx | 4.8                 | 32   | 1.8                  | 15   | -                           | 470  |

## Tools

### Eaton's electronics product selection tools

#### PARAMETRIC SEARCH

Drill down into the Eaton Electronics product database to find the right part for your application.

#### IC MATCHING

Find the Eaton Electronics parts called out on IC manufacturers' demo and evaluation boards.

#### CROSS REFERENCE

Find a cross to a competitor's product or to an alternate Eaton Electronics part number.

#### AUTOMOTIVE ELECTRONICS SOLUTIONS

Find electronics components for automotive solutions.
