

Features for harsh environment

To overcome challenges related to the weather, APLEX's [in-vehicle panel PC](#) offers wide operating temperature and sunlight readable solution for semi-outdoor application. Besides, it also equipped with IP66 and M12 connectors which can tightly connected to I/O ports and cables to protect panel PC from dust and water ingress.

[In-vehicle Panel PC](#) makes your warehouse management more efficiently

To optimize your business into IOT era, APLEX [APC-3XX2](#) and [APC-3XX3](#) in-vehicle panel PC series comes in wireless connectivity including Wi-Fi, Bluetooth, LTE network functions, and so on. Data can be transmitted in real-time for tracking inventories and increase operation accuracy. Moreover, GPS can also track the location of forklifts to help managing vehicles in field.

ACC control prevents from data-crashing

Decreasing the damage of computer suddenly shutting down, ACC control features the function of power on/off delay to prevent from hardware damage and software crash. Furthermore, APLEX [APC-3XX2](#) and [APC-3XX3](#) in-vehicle panel PC series both pass FCC Class A/MIL810G/IEC60068-2-27 certification.

APLEX provides [APC-3XX2](#) and [APC-3XX3](#) series to help minimize operation errors and improve your warehouse management efficiency, learn more below about key specifications....
