& system solutions*

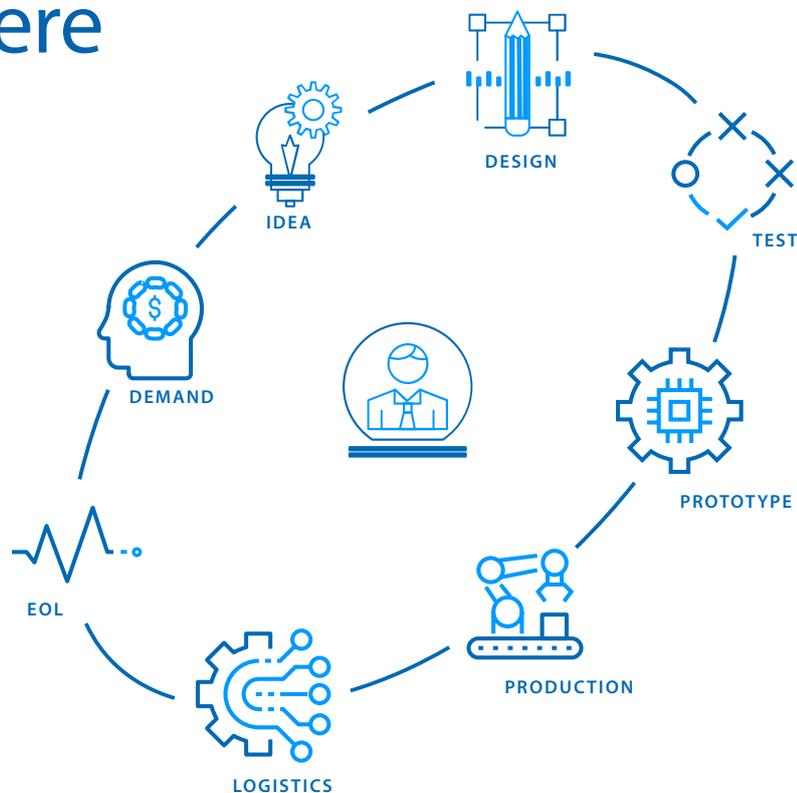

# e-Paper Technology & Alcom

e-Paper is equipped with the benefits of Low Power Consumption, Paper-Like, Sunlight Readable, Shatter Proof, Always On, Easy on the Eyes, Wide Viewing Angle, and Light Weight. Alcom showcases standard and customized display products, Panel PC's based around E Ink technology- the pioneer and leader in this field. This includes Advanced Color ePaper, foldable ePaper, and battery-less solution, as well as ePaper and Panel PC applications in smart transportation, smart retail, smart healthcare, smart logistics, smart office and smart life.

## Co-creation starts here

*Alcom considers everybody an indispensable added value in the collaborative chain with all of its partners.*

BENEFITS OF DIGITAL PAPER DISPLAY SOLUTIONS

- Digitize Traditional Content & Auto Update
- Manage & Schedule via Backend Service
- Support Multiple Modes When Refresh The Screen
- Time Efficient & Labor Cost Saving
- Reusable

- Paper-like Reading Experience: No Backlight is needed
- Sunlight Readable
- Ultra-low Power Consumption
- Easy to Install & Implement
- Info Always On Even Removing Power Source

- Eco-friendly
- No light pollution
- Adopt E Ink technology
- Digital workflow with mobility
- Energy saving
- Easy and low-cost installation
- Low Requirement for data bandwidth
- Gateway to communicate with HIS
- Displays inpatients information or status in real-time
- Low power consumption
- Show "always-on" information

# Product Overview

## The Color Evolution

**E Ink Gallery™ (ACeP)**

Vivid

**E Ink Spectra™ 3100 (Four Color)**

Warm Colors & Highly saturated

Soft & Tender Speed

**E Ink Kaleido™ Plus (Print Color)**

## Born For Sustainability

Replace

Reuse

Reduce Once-off Paper Use

- 7 AFFORDABLE AND CLEAN ENERGY** (Low Power Consumption): Born for sustainable development
- 3 GOOD HEALTH AND WELL-BEING** (Easy on the Eyes): Smart healthcare
- 11 SUSTAINABLE CITIES AND COMMUNITIES** (Sunlight Readable, Low Power Consumption): Sustainable smart city
- 13 CLIMATE ACTION** (Always On): Reduce the impact of climate change, Off-grid emergency indicators
- 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE**: Green manufacturing, Improve electricity efficiency
- 4 QUALITY EDUCATION**: Smart Education

## The Trend of E Ink Technology

**Flexible Technology**

**Color Technology**

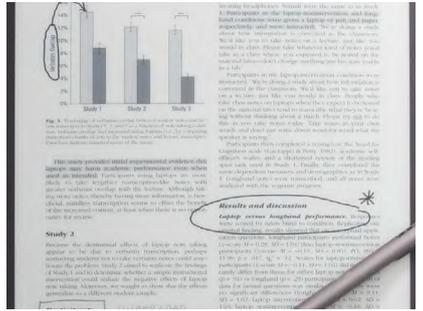

**NFC UHF**

**Ultra Low Power Battery free**

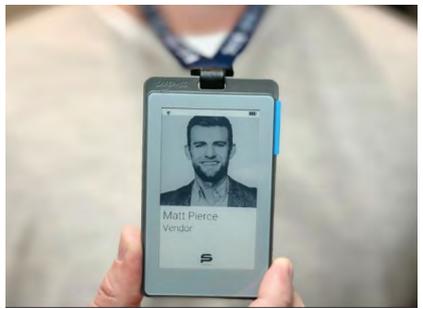

**FW T-con & eCo-system**

# Focused Market Segments

## e-Paper in Smart education & Smart Office

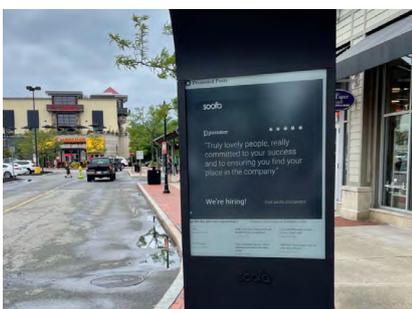

## e-Paper in Smart Retail & Smart Identification

## e-Paper in Smart Hospital and Healthcare

## e-Paper in Smart City & transportation

# New product releases

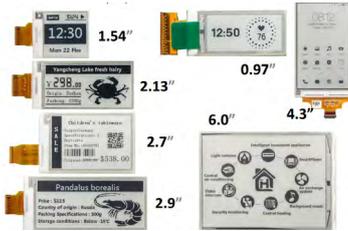

## WHY AND WHERE TO USE E-PAPER DISPLAYS AND SYSTEMS?

E Ink's product lines includes black and white, tri-color and full-color displays in a large range of sizes, inclusive of 1.1 to 42 inches. Due to E Ink's unique, bi-stable technology, all of the displays are extremely power efficient, enabling applications where power may not be readily available, or where battery sizes must be extremely small.

## SEGMENT AND MATRIX E-PAPER

As an E-Ink certified module developer, YES Optoelectronics manufactures custom segment e-papers with glass, flexible or PCB substrate. Two and three color matrix e-paper available as standard or semi-custom version.

## ELECTRONIC PAPER DISPLAY PANEL PC

Avalue's EPD Series Electronic Paper Display panel PCs based on Intel® Celeron® N3350 Processor that is designed for "PUBLIC INFORMATION DISPLAYS" (Digital Signage) in various application and scenario. High performance and extremely low power consumption compared to conventional display technologies and multiple OS support design with Android and Windows EPD Series are ideal solution for informing scenario like Public Transportation, Indoor Large Area Signage.

## 42" AS IDEAL DISPLAY FOR HOSPITAL, HEALTHCARE AND OUTDOOR APPLICATIONS

The 42" e-Paper from Avalue is the perfect display for all smart devices. For example in an hospital environment, the reflective e-Paper display doesn't emit light to disturb patients. This display is also good for outdoor applications.

## MORE COLOR E-PAPER APPLICATIONS IN OUR SMART LIVES

E-Ink offers 3 types of color displays Gallery, kaleido & Spectra 3100. E-Ink Gallery offers color-poster like viewing experience for public mission displays and commercial advertising signage including digital ID cards for visitor management solutions. E-Ink Kaleido offers 3x saturated colours compared to previous generations. E-Ink Spectra 3100 4 color display is another breakthrough now implementing black, white, red and yellow also coming with higher resolution than its predecessor.

## BROCHURES DESCRIBING E-PAPER IN SMART TRANSPORTATION, OUTDOOR, VENDOR, SIGNAGE APPLICATIONS

An overview of how E Ink can enable more efficient communication with Digital Paper products in the healthcare and hospital environment, product designers who are looking to incorporate a low power display into their glucose meter device, cities to implement Emergency Signage to communicate with their citizens and Smart signage.

HOW E INK STAYS ON WHEN THE POWER ISN'T. DIGITAL SIGNAGE THAT KEEPS WORKING IN AN EMERGENCY.
