MultiTech Conduit®
IP67 200 Series

IP67 Base Station for Outdoor LoRa® Deployments

EU868 for Europe

LoRa Alliance®

MultiTech Conduit® IP67 200 Series Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa® public or private network deployments. This highly scalable and certified IP67 solution is capable of resisting the harshest environmental factors including moisture, dust, wind, rain, snow and extreme heat, supporting LoRaWAN® applications in virtually any environment. The enhanced Conduit IP67 solution can support thousands of LoRaWAN certified end nodes, including the MultiTech mDot™* and xDot®*. This flexible solution provides durable, low-power, wide area connectivity in support of M2M and IoT applications for both LoRa service providers and individual enterprises wanting to expand their LoRa network coverage.

Designed for easy deployment, the solution includes an IP67 enclosure, LoRa antenna to improve outdoor range and Ethernet or optional 4G-LTE backhaul. It can be deployed as part of an existing telecommunications tower, individual stand or wall mount.

*Represents ideal network configuration and equipment set up. Results vary depending on payload amount, transmission frequency, spreading factor used, as well as terrain, RF interference and obstruction type (e.g., metal, cement, etc.)
BENEFITS

• Greatly expands LoRa network coverage

• External antenna increases LoRa connectivity to remote assets

• Improved design enhancing thermal performance and easy external port access to SIM and USB connectors

FEATURES

• ISM band scanning for optimum LoRa performance

• GNSS for location coordinate information

• Certified for Europe 868 MHz ISM bands

mPower
EDGE INTELLIGENCE

Programmable embedded software provides enhanced security and enables task execution at the edge for reduced latency and cost optimization.

mPower™ Edge Intelligence embedded software delivers programmability, network flexibility, enhanced security and manageability for scalable Industrial Internet of Things (IIoT) solutions.

mPower simplifies integration with a variety of popular upstream IoT platforms to streamline edge-to-cloud data management and analytics, while also providing the programmability and processing capability to execute critical tasks at the edge of the network to reduce latency; control network and cloud services costs, and ensure core functionality – even in instances when network connectivity may not be available.
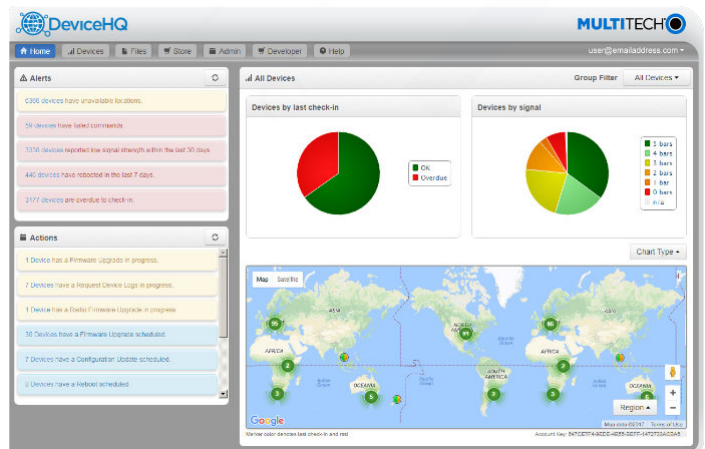

mPower software specifications can be found **here**.

LENS® Embedded Network Server & Key Management Toolset for LoRaWAN® Networks

LENS is a hybrid LoRaWAN® network management platform that enables deployment and management of LoRaWAN networks at scale. Designed for private and enterprise networks, LENS provides a site-by-site user account and centralized management for LoRa® end devices, as well as configuration and control of Conduit® gateways. LENS has the capability to assign unique access rights to individual users, add gateways and LoRa end nodes in bulk, or create separate organizations and network segmentation to support different IoT use cases or applications.
DeviceHQ®

Cloud-based Application Store and IoT Device Management

MultiTech DeviceHQ® is cloud-based tool set for managing the latest generation of MultiTech devices. It incorporates all the functionality of MultiTech Device Manager, on which so many M2M and IoT applications already rely for remote monitoring, upgrades and configuration of entire device populations – whether one or 1 million. DeviceHQ takes remote device management and maintenance to a new level, by providing an application marketplace, allowing users to browse applications or build their own then easily deploy them to and customize them for remote devices from anywhere.

HARDWARE OVERVIEW

Connectors		
Interface	Label	Connector Type
SIM Card	SIM	3FF Micro SIM
USB Host	None	Type A USB Connector
Ethernet Port		RJ-45 Jack
Ground Lug		7/16 HEX 1/4 x 20 Stainless Steel
Vent Valve		S-Flange
Antenna Connectors		
Interface	Label	Connector Type
LoRa Antenna	1	N-Type Antenna Connector
Cellular Antenna (primary)	None	Internal antenna. No external interface
GNSS Antenna		
Cellular Antenna (diversity)		

HARDWARE SPECIFICATIONS

Feature	Description		
CPU Module	ARM9 processor with 32-Bit ARM & 16-Bit Thumb instruction sets • 400 MHz • 16K Data Cache • 256 MB Flash Memory • 16K Instruction Cache • 128X16M DDR RAM		
WAN Backhaul Options	Ethernet	10/100 Base T	All Models
	Cellular	LTE Category 4	-LNA3 models only
GNSS (location, time stamping)	GNSS for LoRa Packet Time Stamping Concurrent GNSS connections: 3 GNSS Systems Supported: (default: concurrent GPS/QZSS/SBAS and GLONASS) GNSS antenna: Internal to chassis		
LEDs	STATUS, LORA, CELL		
Input Power	Ethernet Input Power: 37 - 57 VDC provided by PSE injector with power rating of 25W or greater		
Power-over-Ethernet (PoE)	PoE Standard: IEEE 802.3at		
Power Draw	See Hardware Guide for current draw at specified voltages.		
Physical Description			
Dimensions (L x W x H)	6″ x 6″ x 4″ (152.4 mm x 152.4 mm x 101.6 mm) (see diagram)		
Weight	Approximately 3 lbs (1.4 kg)		
Chassis Type	IP67-Rated composite		
Mounting Options	Wall mount built into chassis (see diagram) / Pole mount (accessory required)		
Environmental			
Operating Temperature	-40° C to +70° C		
Storage Temperature	-40° C to +85° C		
Certifications and Approvals			
EMC Compliance	ROHS Directive 2011/65/EU EN 50581:2012 RED Directive 2014/53/EU. Article 3.1b (EMC) EN 301 489-1 V2.1.1 (General)		
Radio Certifications	RED Directive 2014/53/EU. Article 3.2 (Radio)		
Quality	MIL-STD-810G: High Temp, Low Temp, Random Vibration. SAE J1455: Transit Drop & Handling Drop, Random Vibration, Swept-Sine Vibration. IEC68-2-1: Cold Temp. IEC68-2-2: Dry Heat		
Safety	Low Voltage Directive (LVD) 2014/35/EU Article. 3.1a IEC 60950-1 2nd Edition + Am2:2013 EN 60950-1:2006 + A11:2009 + A1:2010 + A12:2011 + A2:2013 IEC 62368-1:2014 (Second Edition), EN 62368-1:2014 + AC:2017 (Second Edition) EN 62311:2008 (MPE/RD Exposure)		
Warranty	2-Years - www.multitech.com/legal/warranty

Services & Warranty

MultiTech's comprehensive Support Services programs offer a full array of options to suit your specific needs. These services are aimed at protecting your investment, extending the life of your solution or product, and reducing total cost of ownership. Our seasoned technical experts, with an average tenure of more than 10 years, can walk you through smooth installations, troubleshoot issues and help you with configurations.

Technical Support Services

At MultiTech, we're committed to providing you personalized attention and quality service while providing you a quick response to your product support needs. We have several options of support for you to choose from.

For additional information on Support Services as well as other service offerings, please contact your MultiTech representative or visit www.multitech.com/support.go
